Is there a way per my request you could get your wire instructions information from your finance team? Also are the wire instructions for your New Hope Community Foundation, or for New Hope Community operational side? Secondly does your EFT transaction go to the foundation side, or the operational side?

Wilfredo Gajda

Hi Wilfredo,

To better support you, can you let me know what your goal is? Do you feel like a Wire Transfer is more aligned with your goals than an EFT via our online form? Understanding this will help me better support your philanthropic goals.

Kindly,
Janae

Sure, it is kind of hard to word what my end goal is, because I know it's something along the lines of utilizing both the operational side of New Hope Community and the foundational side of New Hope Community, to make a greater impact. I think a wire transfer and an EFT on your online form could both be helpful. To be more specific I feel that the wire transfer instructions would be helpful if it was connected to the operational side, not the foundational side. I kind of picture the EFT form being the "middleman" between both sides. If this isn't possible with

your EFT form and wire instructions. How can I take advantage of New Hope's operational side and foundational sides, in my philanthropic efforts?

On a side note you aren't the only one that asked me what my goal is. I thought I was making myself clear.
